

STANDARD OPERATING PROCEDURE

Installing Safe Exam Browser and Launching the TalentGate Assessment

Accelirate TalentGate – Candidate Evaluation Platform

1. Purpose

This SOP explains, step by step, how a candidate installs Safe Exam Browser (SEB) and opens their Accelirate TalentGate assessment inside it. The assessment can only be taken inside SEB, a free lockdown browser that stops other applications and notifications from reaching the candidate during the exam.

2. Prerequisites

- A Windows 10 (version 1803 or newer) or Windows 11 computer with a stable internet connection.
- A working camera and microphone.
- Your Aadhaar card, and access to the mobile number registered with Aadhaar (to receive the OTP for downloading e-Aadhaar in Part B, used as a fallback for verification).
- Access to the invitation email "Invitation to the Accelirate Fresher Aptitude Assessment" and the registered email address it was sent to.
- Permission to install software on the computer (administrator rights may be needed for the SEB installer).

Important: The assessment link in the email is assigned to you alone and must not be shared. Open it only within the assessment window stated in the email, start at least 30 minutes before the window closes, and complete it in one uninterrupted session – it cannot be resumed after submission or once the window closes.

3. Process Overview

The procedure has four parts. Candidates who already have SEB installed can skip Part A.

Part	What you do	Steps
A	Download and install Safe Exam Browser	Steps 1 – 4
B	Prepare your Aadhaar for identity verification (show the card first; e-Aadhaar image as fallback)	Steps 5 – 7
C	Open your assessment link and confirm your details	Steps 8 – 10
D	Launch Safe Exam Browser into the assessment (three options, each a fallback for the one before)	Steps 11 – 19

4. Procedure

Part A – Download and Install Safe Exam Browser

Step 1: Open the SEB download link from the invitation email

- ▶ Open the invitation email "Invitation to the Accelirate Fresher Aptitude Assessment".
- ▶ Scroll to the section **Install & Open Safe Exam Browser**.
- ▶ Click the link https://safeexambrowser.org/download_en.html. The official SEB download page opens in your browser.

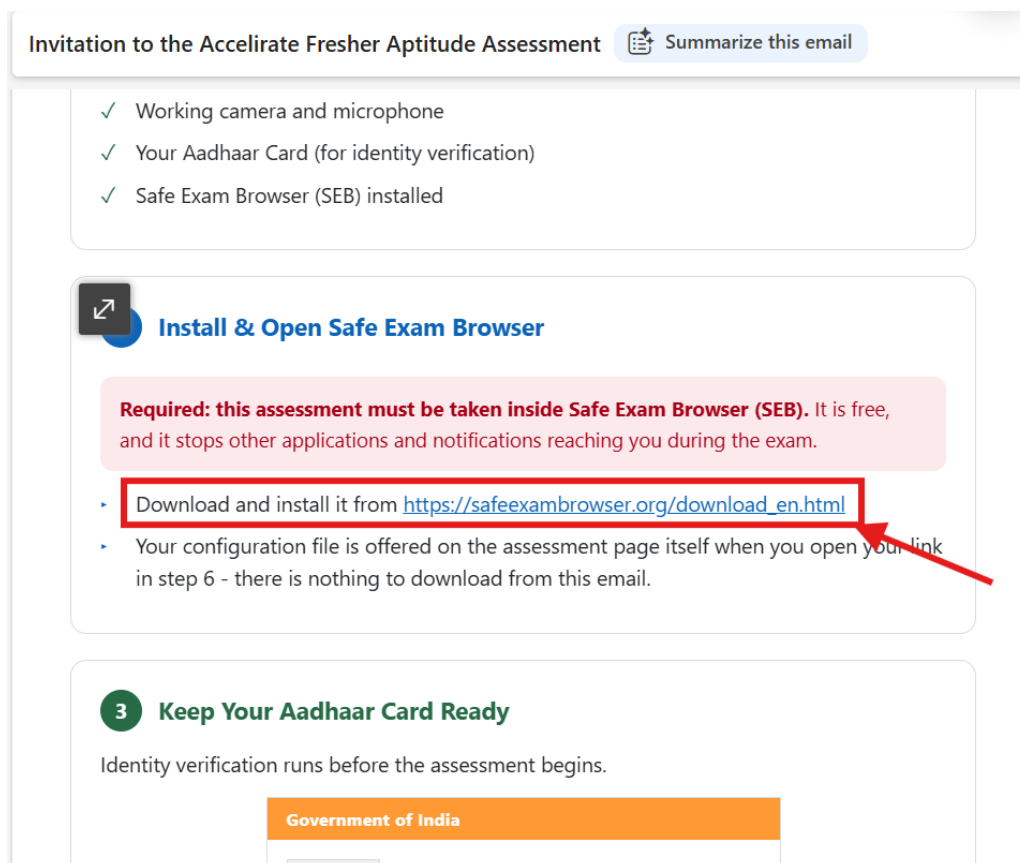

Figure 1: Invitation email – SEB download link

Note: There is nothing to download from the email itself. The configuration file is offered later on the assessment page (Step 11).

Step 2: Download SEB for Windows

- ▶ On the page **Download – Latest Releases**, go to the **Windows** section.
- ▶ Click the blue button **Safe Exam Browser 3.10.2 for Windows** (the version number may be newer).
- ▶ Check that your PC meets the requirement shown under the button: Windows 10 (version 1803 or newer) or Windows 11.

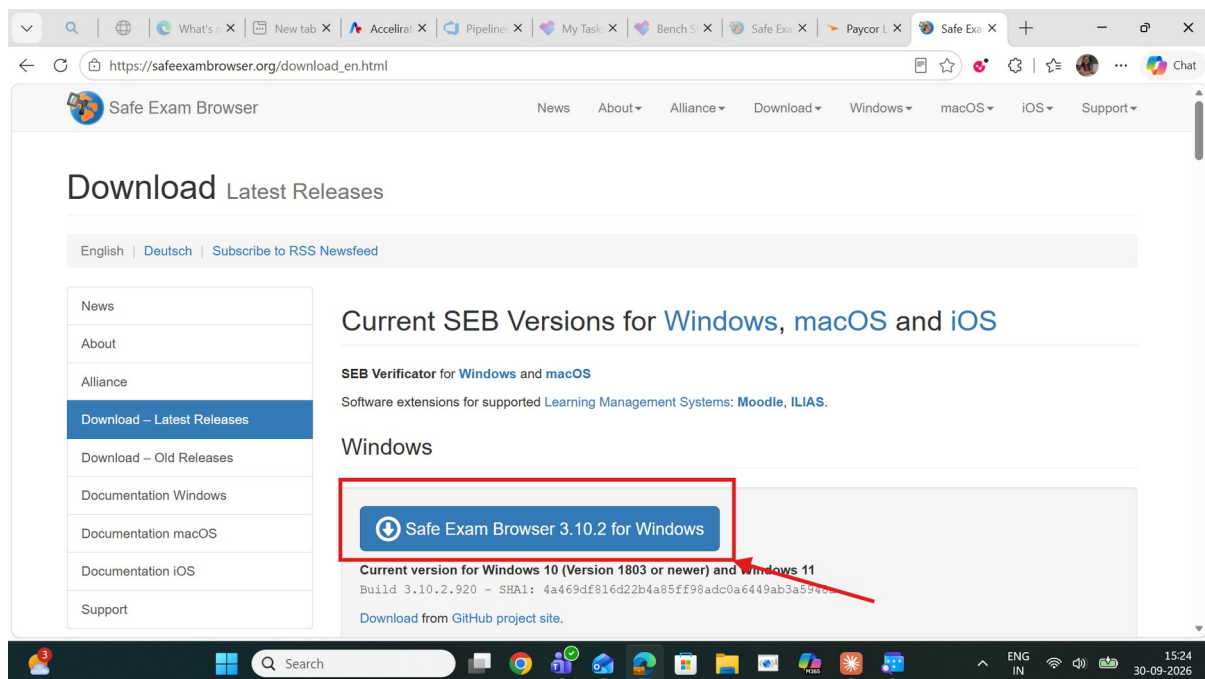

Figure 2: safeexambrowser.org – Safe Exam Browser for Windows button

Step 3: Let the download start automatically

- ▶ You are redirected to SourceForge, which shows "Your download will start shortly..."
- ▶ Wait a few seconds. The installer SEB_3.10.2.920_SetupBundle.exe downloads to your Downloads folder.
- ▶ If the download does not start, click **Problems Downloading?** and choose another mirror.

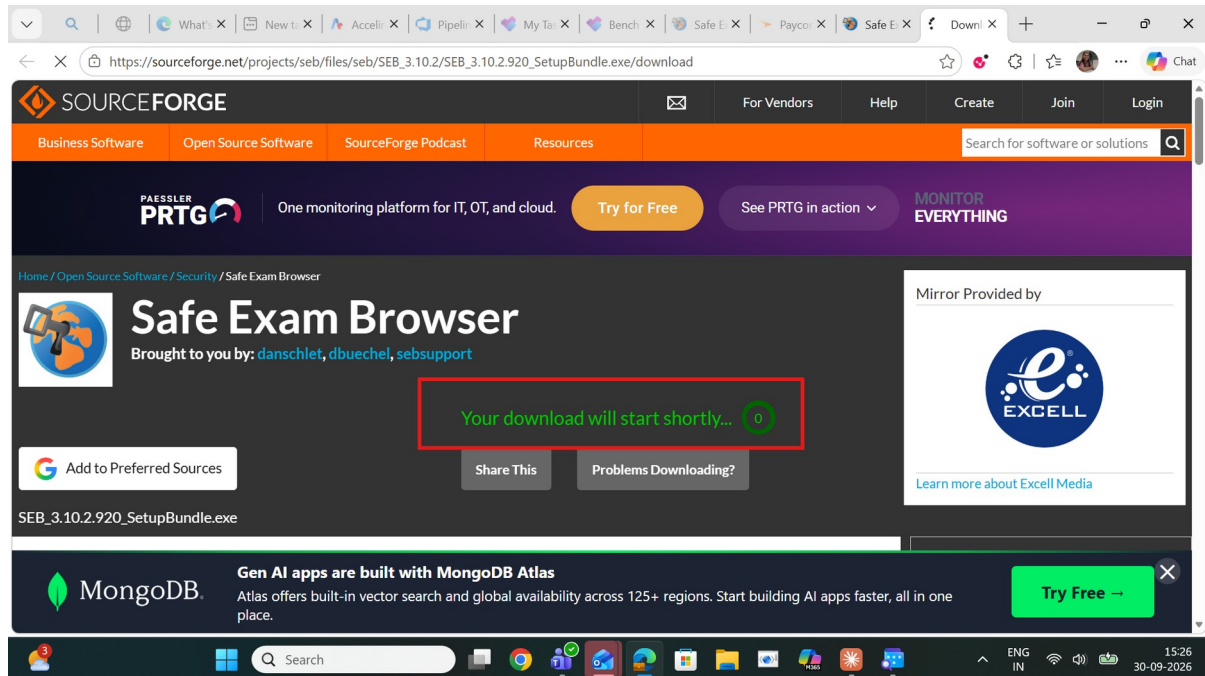

Figure 3: SourceForge – download starts automatically

Note: Close any advertisement pop-ups on the SourceForge page; do not click "Try Free" or other sponsor buttons.

Step 4: Install Safe Exam Browser

- ▶ Open your **Downloads** folder and double-click SEB_3.10.2.920_SetupBundle.exe.
- ▶ If Windows asks "Do you want to allow this app to make changes to your device?", click **Yes**.
- ▶ Accept the licence terms, click **Install**, and wait for the setup to finish. Click **Close** / **Finish**.
- ▶ SEB is installed in C:\Program Files\SafeExamBrowser. You do not need to open it manually – it is launched from the assessment page.

Part B – Prepare Your Aadhaar for Identity Verification

Identity verification runs before the assessment begins. Keep your original Aadhaar card with you and try showing it to the camera first. Uploading the e-Aadhaar image is a fallback, used only if the camera photo of your card is not clear.

Option	What to do	When
Primary – show the card	Hold your original Aadhaar card (front side) steady in front of the camera, close enough that the photo, name and number are clearly readable, in good light with no glare.	Always try this first.
Fallback – upload the image	Upload the cropped e-Aadhaar image prepared in Steps 5 – 7.	Only if the card photo captured by the camera is not clear (blurred, glare, unreadable text) and you are asked to upload it.

Important: Prepare the e-Aadhaar image (Steps 5 – 7) in advance anyway, so it is ready if the fallback is needed during verification.

Step 5: Download your e-Aadhaar from the UIDAI website

- ▶ Go to the official UIDAI portal <https://myaadhaar.uidai.gov.in> and click **Download Aadhaar**.
- ▶ Select **Aadhaar Number**, enter your 12-digit Aadhaar number and the security (captcha) code shown on screen.
- ▶ Click **Send OTP** and enter the OTP sent to your Aadhaar-registered mobile number.
- ▶ Click **Verify & Download**. The e-Aadhaar PDF is saved to your Downloads folder.

Important: Use only the official UIDAI website (uidai.gov.in / myaadhaar.uidai.gov.in). Never share your OTP with anyone.

Step 6: Open the e-Aadhaar PDF

- ▶ Open the downloaded PDF. It is password protected.
- ▶ The password is the **first four letters of your name in CAPITAL letters** followed by your **year of birth (YYYY)**. Example: name "RAHUL", born 1998 → RAHU1998.

Note: If your name has fewer than four letters, enter the full name in capitals followed by the year of birth.

Step 7: Crop the front of the Aadhaar card and save it

- ▶ Press **Windows + Shift + S** (Snipping Tool) and select **Rectangle**.
- ▶ On the e-Aadhaar PDF, find the front of the card – the box marked with a dashed cut line and scissors (✂) at the bottom of the page.
- ▶ Drag to select only that box, as shown in the reference below: from the "Government of India" header down to the "माझे आधार, माझी ओळख" / "मेरा आधार, मेरी पहचान" line, including your photo, name, date of birth, gender and Aadhaar number.
- ▶ Do not include the rest of the PDF page (address, back side of the card, instructions or page margins).
- ▶ Save the image (e.g. Aadhaar_Front .png) in an easy-to-find folder. Keep your original Aadhaar card with you as well – you will show it to the camera first and upload this image only if asked.

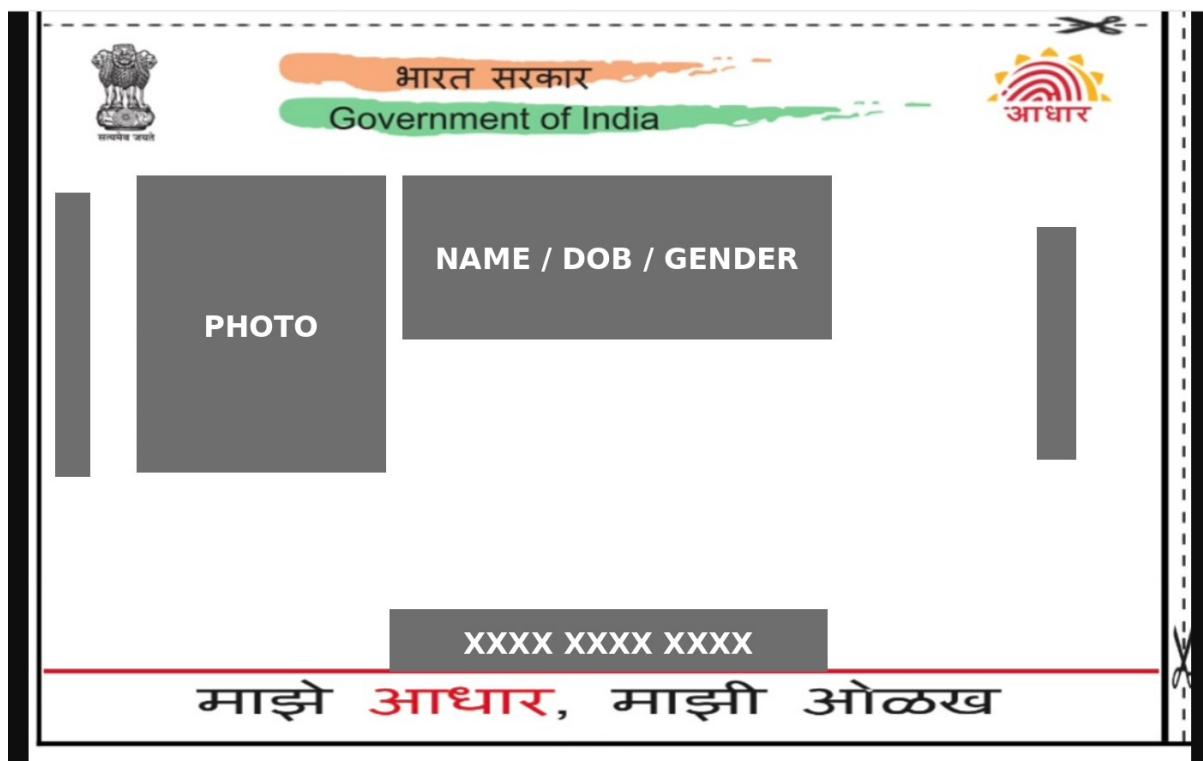

Figure 4: Reference – cropped front of Aadhaar card (personal details masked)

Note: The reference image is masked for privacy. Your own cropped image must show your details clearly – do not mask or edit it. The text should be sharp and readable, with no glare or blur.

Part C – Open the Assessment Link and Confirm Your Details

Step 8: Click "Start Your Assessment" in the email

- ▶ In the invitation email, scroll to section **6 – Start Your Assessment**.
- ▶ Click **Start Your Assessment →**. The TalentGate Candidate Exam Portal opens in your browser.
- ▶ Alternatively, copy the link shown under the button ("Or paste this into SEB") and paste it into your browser.

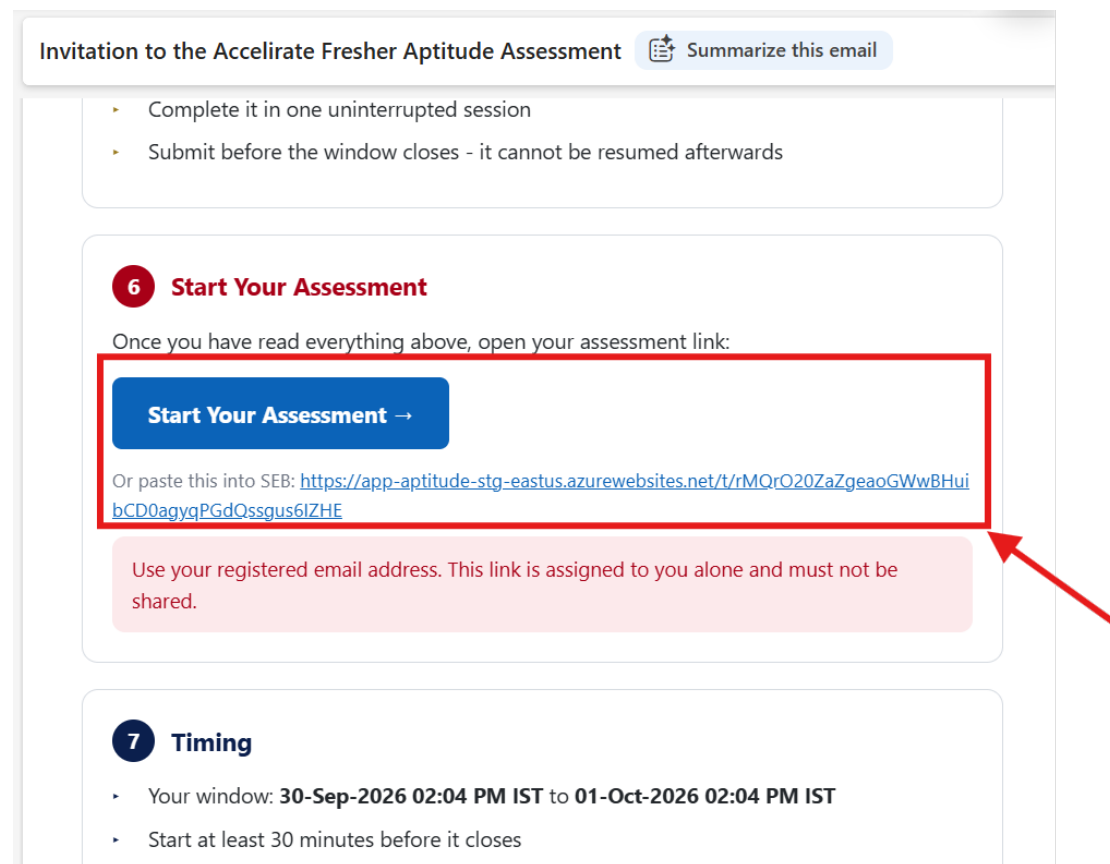

Figure 5: Invitation email – Start Your Assessment button and link

Important: Use your registered email address. The link is assigned to you alone and must not be shared. It works only within your assessment window (see section 7 – Timing in the email).

Step 9: Enter your registered email

- ▶ On the **Confirm Your Details** page, type the email address the assessment link was sent to in **Registered Email**.
- ▶ Click **Continue**.

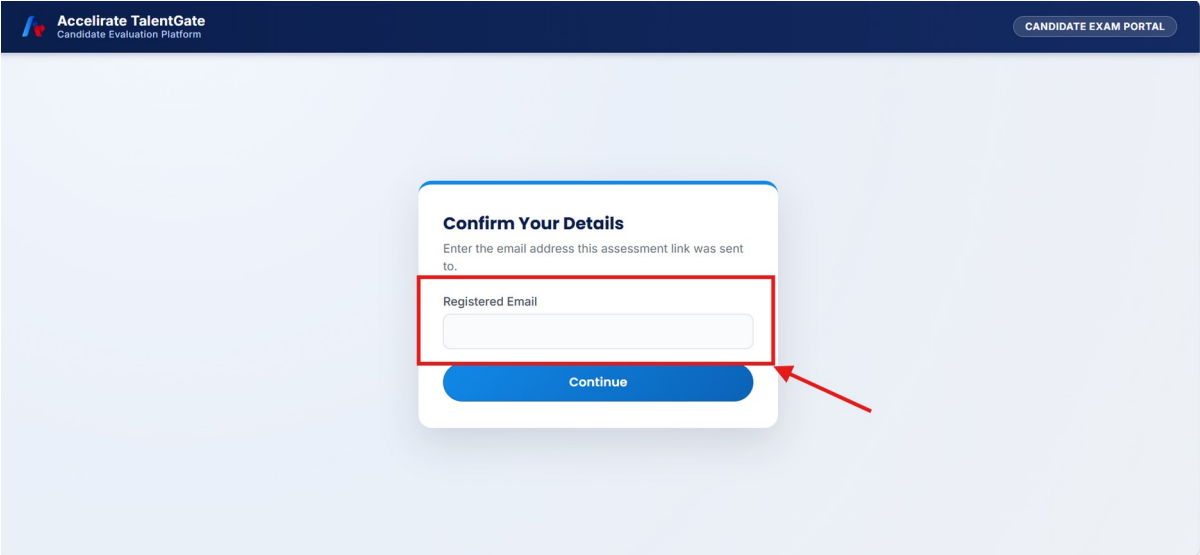

Figure 6: Confirm Your Details – Registered Email

Step 10: Confirm that SEB is installed

- ▶ The page **Step 1: Get Safe Exam Browser** is shown.
- ▶ If you completed Part A, click **I have Safe Exam Browser installed – Continue**.
- ▶ If SEB is not installed yet, click **Download Safe Exam Browser** (opens safeexambrowser.org in a new tab), complete Steps 2 – 4, then come back to this page and click **I have Safe Exam Browser installed – Continue**.

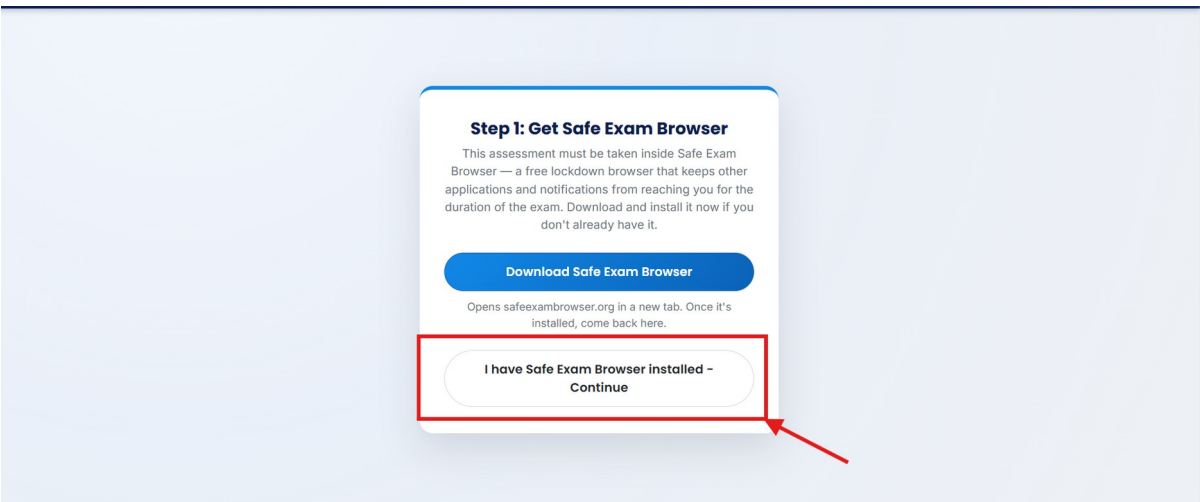

Figure 7: Step 1: Get Safe Exam Browser – Continue

Part D – Launch Safe Exam Browser into the Assessment

Step 11: Choose a launch option on "Step 2: Launch Safe Exam Browser"

Follow the options in order – each one is a fallback for the option before it.

Option	Action	If it works	If it does not work
Option 1	Click Launch Safe Exam Browser . Allow the browser prompt to open Safe Exam Browser if asked.	SEB opens straight into your assessment – you are done; skip the remaining steps.	Nothing happens after a few seconds → use Option 2.
Option 2	Click the link download the configuration file . A .seb file (talentgate-assessment.seb) is saved to Downloads. Double-click it.	SEB launches straight into your assessment.	The file does not open in SEB → go to Step 14. The download is blocked ("file type is prohibited") → use Option 3.
Option 3	Click the link download it as a zip file . A file such as talentgate-assessment.zip is saved to Downloads.	Continue with Steps 12 – 14.	Contact the recruitment team / IT support.

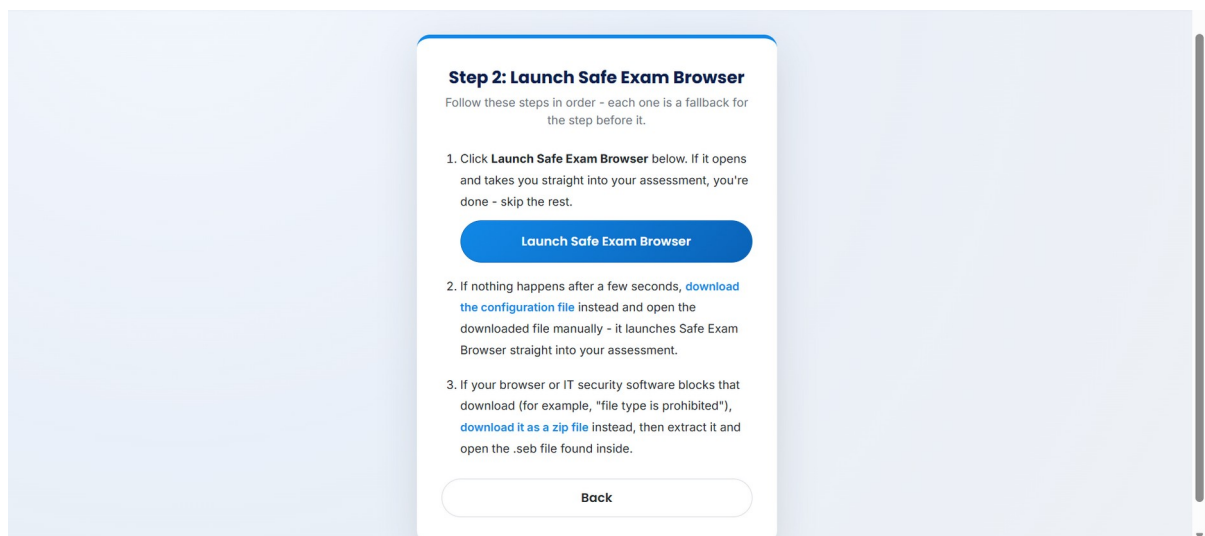

Figure 8: Step 2: Launch Safe Exam Browser – three options

Step 12: Open the downloaded zip file (Option 3 only)

- ▶ Open your browser's **Downloads** panel (Ctrl + J in Edge/Chrome).
- ▶ Under talentgate-assessment.zip click **Open file**, or click the folder icon to show it in File Explorer and double-click it.
- ▶ The file name may include a number, e.g. "talentgate-assessment (22).zip", if you downloaded it more than once. Always use the latest one.

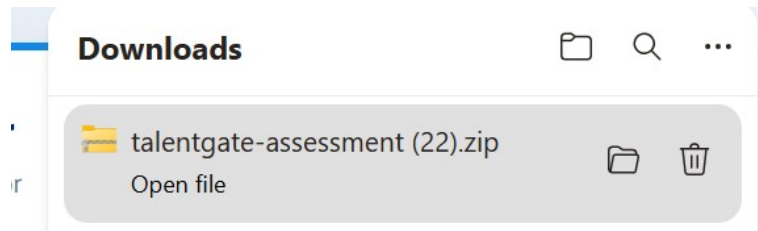

Figure 9: Browser Downloads panel – zip file with Open file / folder icon

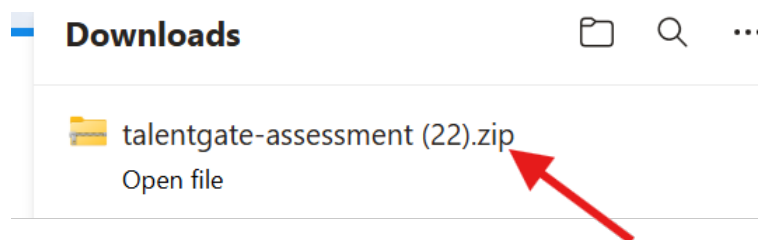

Figure 10: Click the zip file name to open it

Step 13: Extract the zip file

- ▶ The zip opens in File Explorer and shows talentgate-assessment of type **SEB Configuration File**.
- ▶ Click **Extract all** on the toolbar, keep the suggested destination, and click **Extract**.
- ▶ The extracted folder opens automatically and contains the talentgate-assessment .seb file.

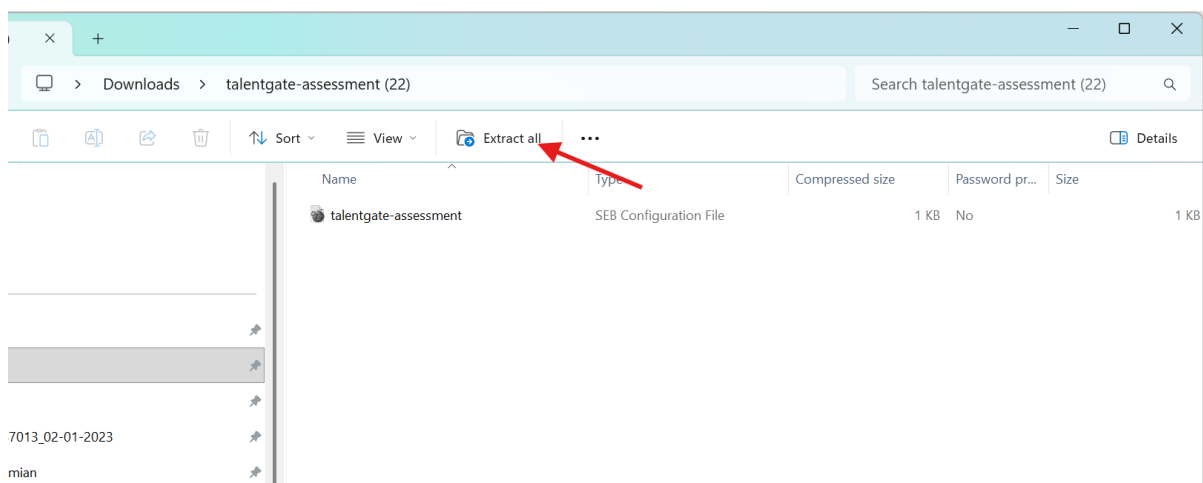

Figure 11: Zip contents – click Extract all

Important: Do not open the .seb file directly from inside the zip. Always extract it first.

Step 14: Open the .seb file with Safe Exam Browser

- ▶ In the extracted folder (or in Downloads, for Option 2), right-click talentgate-assessment.
- ▶ Select **Open with** → **Safe Exam Browser**.
- ▶ SEB launches and takes you straight into your assessment.

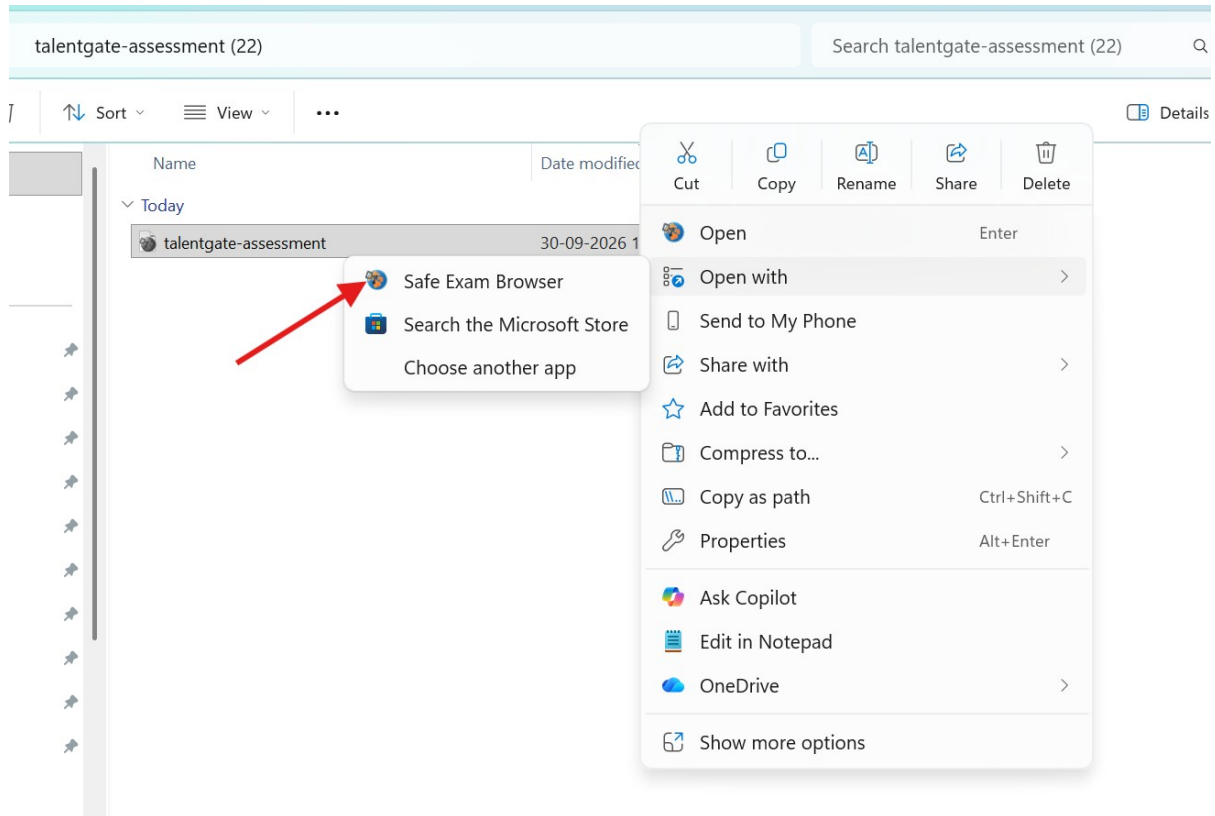

Figure 12: Right-click → Open with → Safe Exam Browser

Result: If SEB opens the assessment, you are done. Continue with Steps 15 – 19 only if Safe Exam Browser is not listed under Open with.

Step 15: If Safe Exam Browser is not listed – choose another app

- ▶ Right-click the .seb file → **Open with** → **Choose another app**.

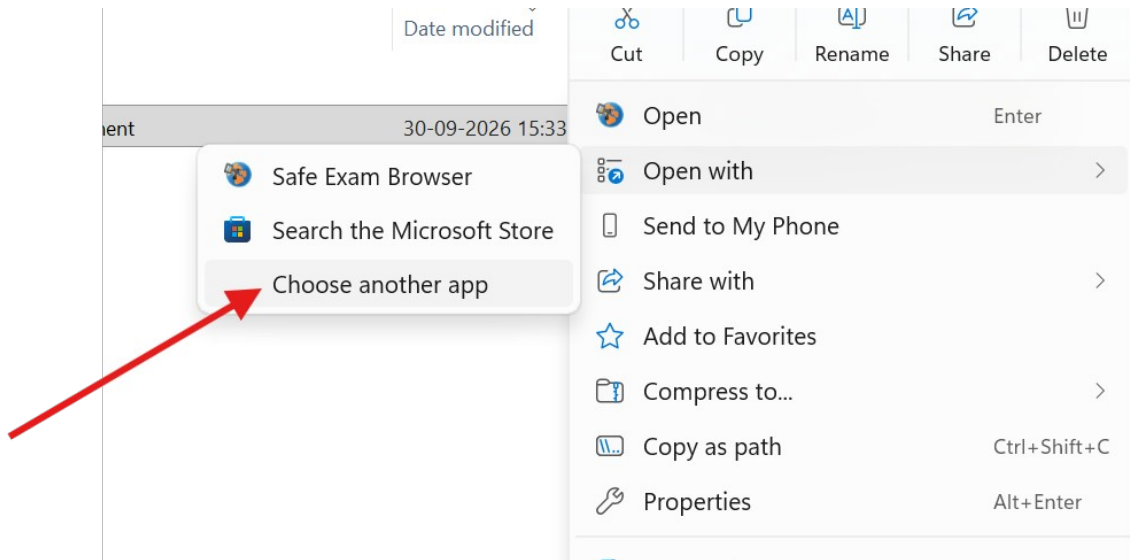

Figure 13: Open with → Choose another app

Step 16: Choose an app on your PC

- ▶ In the window **Select an app to open this .seb file**, scroll to the bottom of the list.
- ▶ Click **Choose an app on your PC**. Do not select Notepad, Word, VS Code or any other app shown.

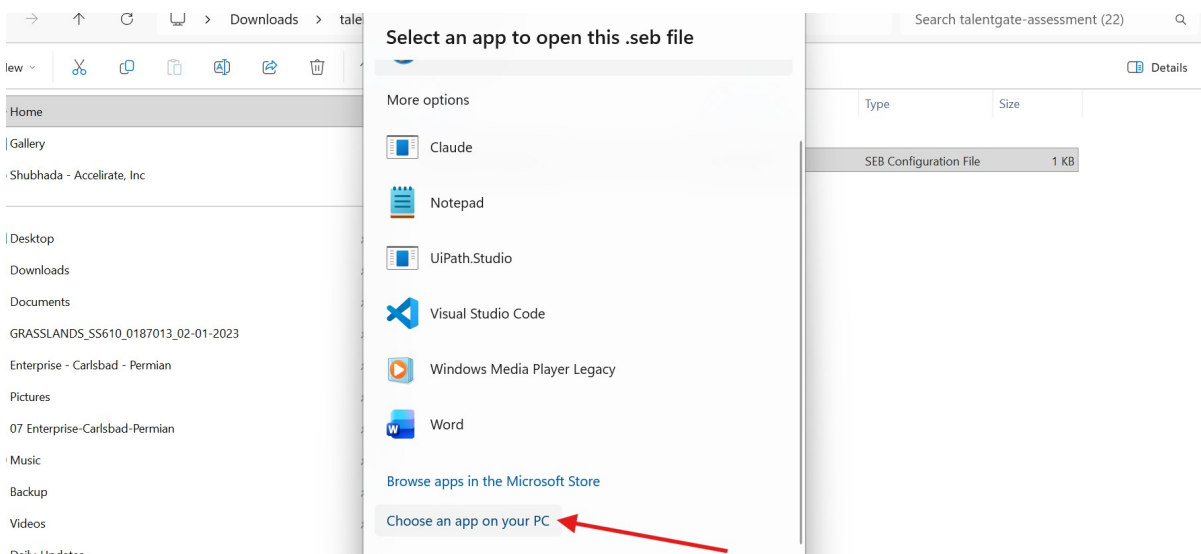

Figure 14: Select an app to open this .seb file – Choose an app on your PC

Step 17: Go to the SafeExamBrowser folder in Program Files

- ▶ In the **Open with...** dialog, go to **This PC → Local Disk (C:) → Program Files**.
- ▶ Type **SafeExamBrowser** in the **File name** box (or select it from the suggestion) and click **Open**.

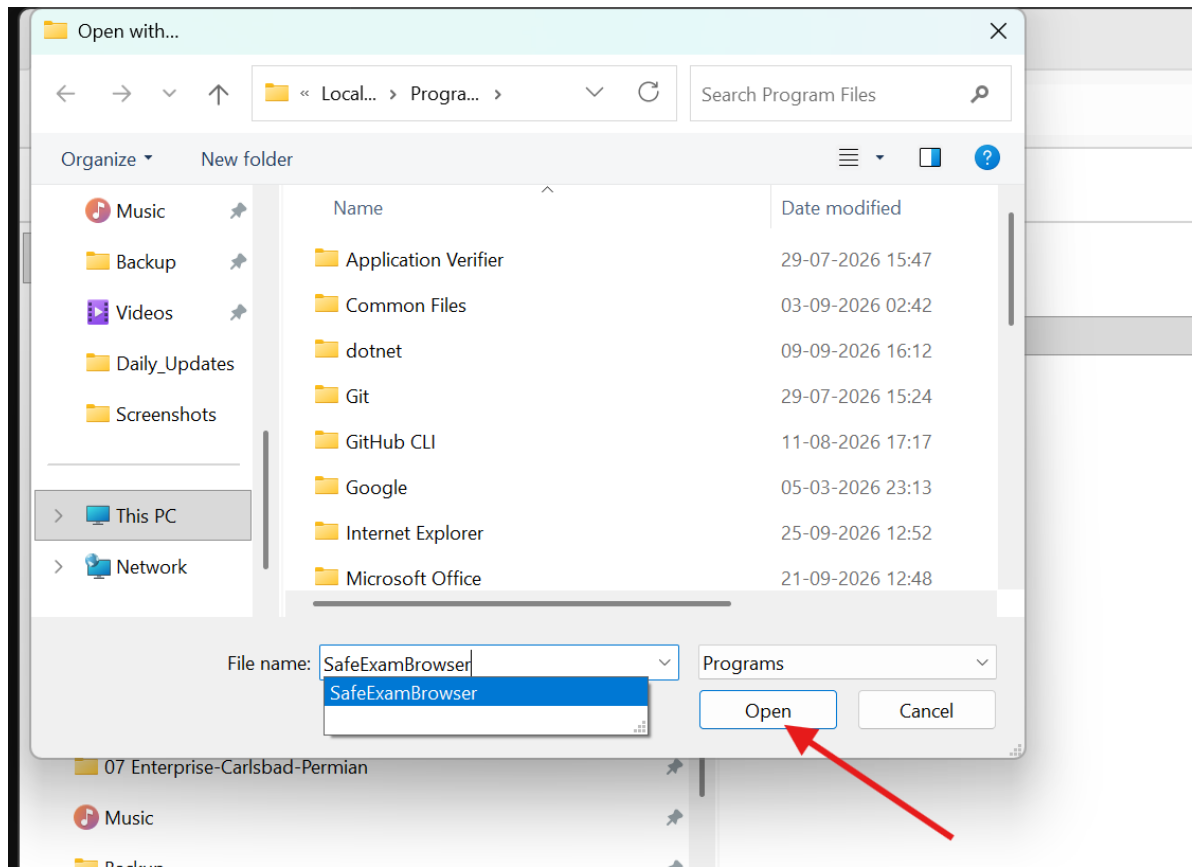

Figure 15: Program Files – type SafeExamBrowser and click Open

Step 18: Open the Application folder

- ▶ Inside C:\Program Files\SafeExamBrowser you see the folders Application, Configuration, Reset and Service.
- ▶ Double-click the **Application** folder.

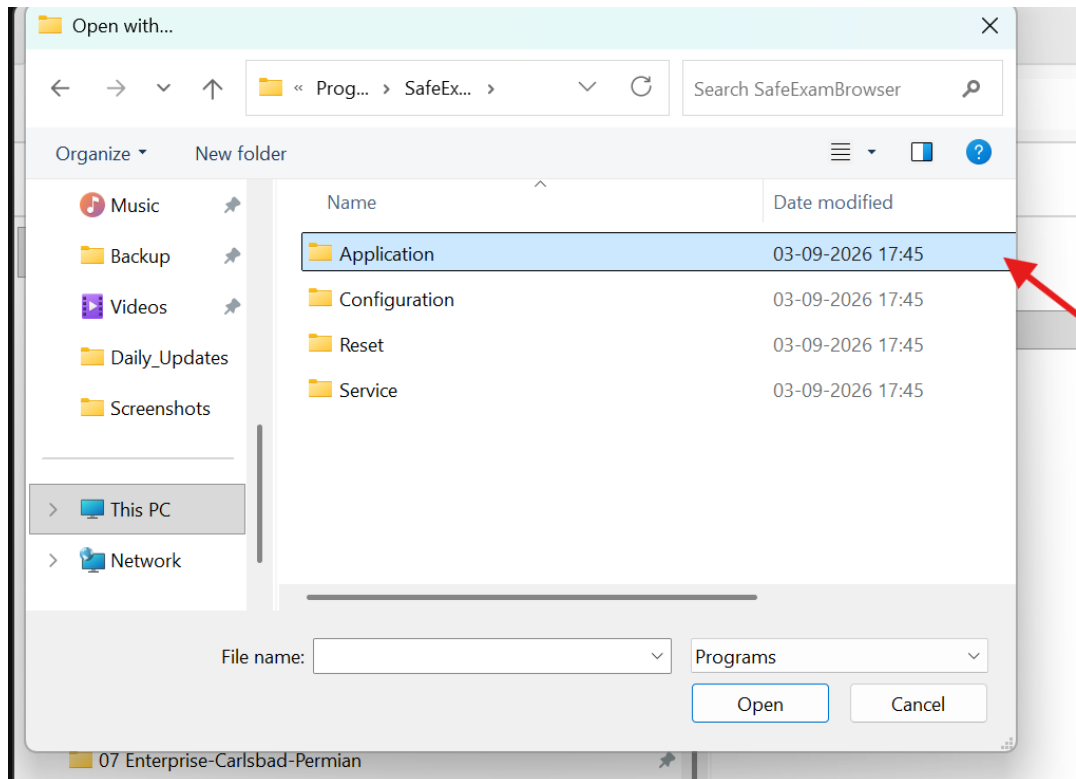

Figure 16: SafeExamBrowser folder – open Application

Step 19: Select SafeExamBrowser and click Open

- ▶ Select **SafeExamBrowser** (the application file). Do not choose SafeExamBrowser.Client or CefSharp.BrowserSubprocess.
- ▶ Confirm the File name box shows **SafeExamBrowser** and click **Open**.
- ▶ If Windows asks whether to always use this app for .seb files, choose **Always** so future .seb files open in SEB directly.
- ▶ Safe Exam Browser launches with the configuration file and opens your assessment.

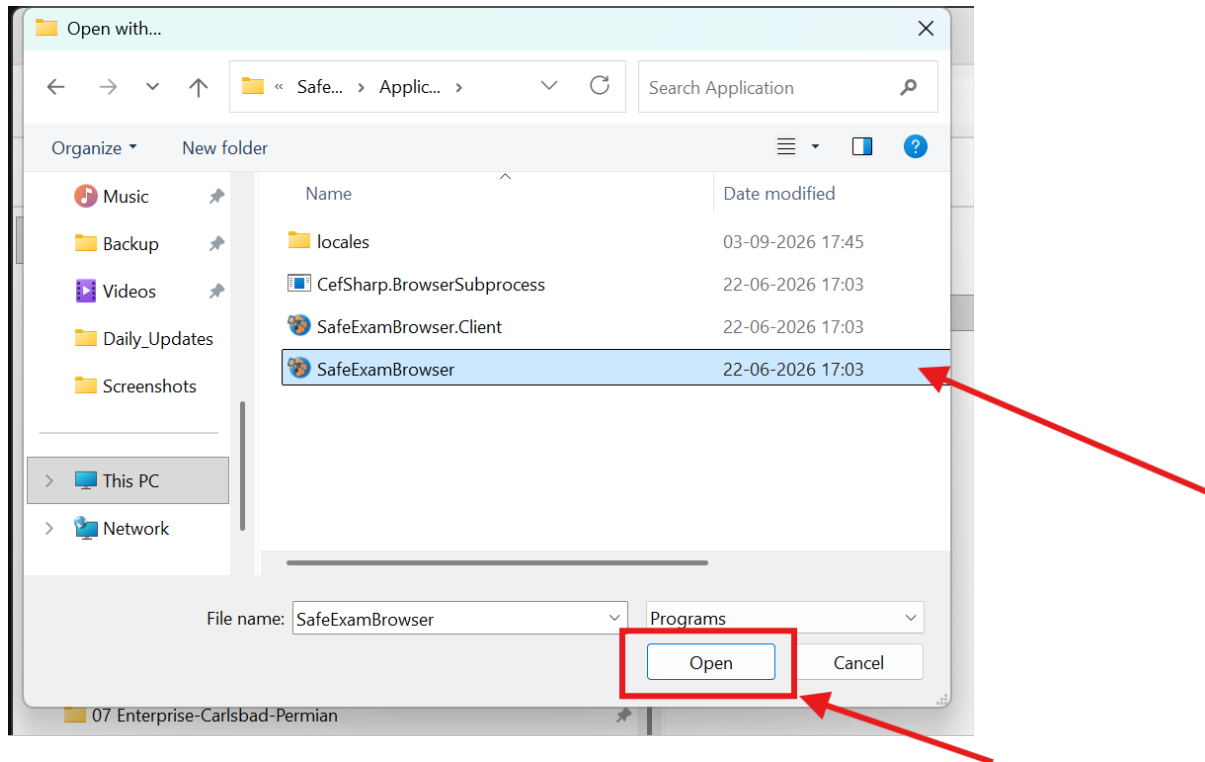

Figure 17: Application folder – select SafeExamBrowser and click Open

Result: Safe Exam Browser opens the TalentGate assessment. Identity verification runs before the assessment begins: first show your original Aadhaar card to the camera; if the photo is not clear, upload the image prepared in Step 7.

5. Troubleshooting

Problem	Resolution
Nothing happens after clicking "Launch Safe Exam Browser"	Use Option 2 – download the configuration file (Step 11).
Browser or antivirus blocks the .seb download ("file type is prohibited")	Use Option 3 – download as a zip file, then follow Steps 12 – 14.
Double-clicking the .seb file opens Notepad or another app	Right-click → Open with → Safe Exam Browser (Step 14). If not listed, follow Steps 15 – 19.
Safe Exam Browser is not in C:\Program Files	SEB is not installed. Complete Part A (Steps 1 – 4).

Problem	Resolution
Installer will not run on an office laptop	Administrator rights are needed. Contact your IT team.
Email not accepted on "Confirm Your Details"	Enter exactly the email address the invitation was sent to.
Aadhaar card photo from the camera is not clear	Retake in better light, holding the card steady with no glare. If it is still not clear, upload the cropped e-Aadhaar image from Step 7.
e-Aadhaar PDF will not open	Password = first four letters of your name in CAPITALS + year of birth (e.g. RAHU1998).
OTP not received on the UIDAI website	OTP goes only to the mobile number registered with Aadhaar. Wait and click Resend OTP.
Assessment link does not open	Check you are within the assessment window given in the email.
